

Contents

Acknowledgments.....	ix
Introduction.....	xi
Chapter One Why This Book Was Written	1
Chapter Two Are Dietary Supplements Dangerous?	7
Chapter Three Your Body, Your Biochemistry.....	9
Amino Acids.....	9
Vitamins	11
Minerals.....	12
Non-Vitamin Nutrients.....	13
Fats.....	16
Diet and Nutrients.....	16
Digestion and Assimilation of Nutrients	19
Chapter Four Kinetics	24
Chapter Five Mitochondria and Disease.....	27
Medication-Induced Mitochondrial Damage.....	30
Chapter Six Addictions.....	33
Chapter Seven Osteoporosis	36
Chapter Eight Fatigue and Depression.....	41
Chapter Nine Exercise Stamina and Strength	47
Chapter Ten Memory Loss and Dementia	50
Chapter Eleven Overweight and Obese.....	56
Chapter Twelve Sexual Dysfunction	59

Chapter Thirteen	Seizures	61
Chapter Fourteen	Insomnia and Sleep Apnea	64
Chapter Fifteen	Cancer	67
Chapter Sixteen	Case Studies in Nutritional Biochemistry	71
	Case 1: Hypertyrosinemia (elevated tyrosine)	71
	Case 2: Hypodopaminemia (low dopamine)	73
	Case 3: Total-Body Breakdown (TBB)	74
	Case 4: Age-Related Degeneration (ARD)	77
Chapter Seventeen	Nosology	80
	Analytes by Condition	81
